

LAUNDRY TRUCKS

Simple, yet rigid construction for quick, easy maintenance

Laundry trucks seem to be at the bottom of the care list. They suffer daily abuse and constant neglect, until something breaks. The rigid, non-snagging design of these Norman trucks, provide maximum resistance to punishment while safely transporting a large volume of laundry. If damaged, it is easily repaired. Every attachment part can be removed and replaced in minutes... with ordinary hand tools.

Cast aluminum joiner clamps are interchangeable to either truck size and eliminates large spare part inventories. These joiner clamps hold the panels as if welded. Four 4 inch swivel casters with roller bearings and composition wheels, are impervious to fats, grease, oil, water and most acid or alkali solutions. All panels are protected with a metallic blue synthetic enamel. These units are shipped knocked down and easily assembled on location.

MODEL 7116 Ship Wt. 190 lbs.*

60" L x 36" W x 36" H

MODEL 7117 Ship Wt. 250 lbs.*

70" L x 48" W x 36" H

** Includes Caster Set & Hardware*
